Career Goal

Grow as a professional and fulfill my personal aspirations by applying my knowledge in the area of software development, focusing on improving processes and products. Also by taking into account automation and technological innovation to deliver results that are in line with the new trends.

Education

- Udemy Online School - React: From Zero To Expert / course with 54+ hours of videos - September 2022

    In this course I learned how to work with the Javascript library React, the course covered everything from components and their properties, how to use Hooks and create custom hooks, create stores using Redux, write unit tests and how to develop a Full Stack web application using the MERN stack.

- Generation Mexico - Java Full Stack Developer Bootcamp / September 2021 - December 2021

    I participated in an intensive coding program that prepares participants for a Full Stack Java developer role. I learned best programming practices, technical and behavioral skills, to succeed in the area of Software development.

- Tecnologico de Monterrey (ITESM) - Mechatronics Engineer / August 2010 - May 2015

- Jönköping University (JU) Jönköping, Sweden - Student Exchange Program / August 2013 - December 2013

Professional Experience

Professional internship - Givaudan de Mexico / June 2014 – December 2014

I had the opportunity to work in a leading global manufacturing company of flavors and fragrances. In the area of project engineering and maintenance, where I contributed ideas that drove new projects and helped in the validation and management of the projects.

Operations Trainee PACH - Pepsico Alimentos Mexico / July 2015 – July 2016

I was one out of 25 people selected from more than 2,500 applicants to enter the accelerated growth program with the objective of filling high responsibility roles in the short term.

Senior Operations Supervisor - Pepsico Alimentos Mexico / August 2016 – January 2018

I coordinated the Supply Chain planning for retail stores for the Savory (Sabritas) and Confectionery (Sonrics) business units.

Co-founder - Corazón Purépecha / February 2018 - June 2021

I created a food manufacturing company, where I performed different activities including the incubation of the project, product development, brand registration and the product launch in 2018 under the brand Corazon Purepecha.
